Call Box 3006
Lodi, CA 95241-1910

Attention: Alice M. Reimche, City Clerk

RE: Draft Environmental Impact Report (DEIR) of the proposed
230 KV Electrical Interconnection between the City of Lodi
and the Western Area Power Administration.

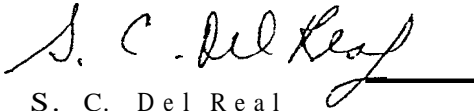

Dear Ms. Reimche:

We have been informed by our Protection Engineering Group that our "T" carrier line on the existing poles which are located along the north side of Highway 12 going west from Lodi may be negatively effected by your proposed 230 KV line at that location.

If relocation and or undergrounding of our aerial facilities are required due to this project, you will be billed for such relocation and or undergrounding.

Again, if you have any questions, please call me on 916-972-6121, our Outside Plant Engineer Ms. Carolyn Ives on 209-474-4726 or our Protection Engineer Mr. Al D. Banducci on 916-972-3420.

Sincerely,

S. C. Del Real
Public Works Coordinator
